

**CHAFT Management Committee 13<sup>th</sup> October, 2021**

**THE FIELD (grassland area including the children's play park)**

**PLAYPARK.**

The work surrounding the main children's play equipment has now been completed. If you recall the wood chipped area had been reduced. This area has now been weeded, additional top soil added and grass seed sown. The additional cost of £50 is within the original approved budget.

**REPORT OF SAFETY OFFICER**

Bruce will report orally.

**OUTSTANDING ACTIONS.**

Incursion of rabbits - Responsibilities of landowner to be drawn to the attention of McBain's (Neil)

Horses riding on the field – Action to be taken to discourage horse riding on the western footpath. (Woodland Renovation Team)

**CHARNEY FIELD – URGENT SAFETY CONSIDERATIONS**

Attention is drawn to the fact that the role of the lead Trustee and Safety Officer cover the grassland land area (including the children's play park)

Given the outcome of recent discussions and imminent initiatives the Management Committee need to take action to ensure that adequate safety procedures and policies for the woodland area, Bridle Path and the watercourse are developed, implemented and recorded. (The existing policy for the grassland and play area (which has previously been extended to include bonfires) points to the urgency of this work)
