

Report To CHAFT Committee - August 2023.

Hall Report.

Longer Term - Hall improvements & Energy Audit

Following the decision made by the subcommittee to replace the existing ceiling heaters with more modern Infrared Heaters, a heating specification was compiled and three companies approached for quotes. Those quotes have now been received. (Detailed quotes attached)

Jigsaw £4843.75

ARC £7754.76

Hershel £8557.00

The sub committee have decided that on the basis of cost alone we should consider the Jigsaw quote.

The sub committee is now looking to get quotes for double glazing or replacement windows and for upgrading the lighting.

5-year Electrical Inspection

Hall electrics were inspected on 12th April 2023. The electrics were found to be satisfactory however there were 14 small points raised in the report(attached). We have been advised that when we have upgraded the heating, we will need to have another electrical certificate for any new installations.
