

CHARNEY HALL & FIELD TRUST

Management Committee 11th October 2023

Proposed allotments to the north of Charney Field.

At the last meeting of the Joint Liaison Group, comments were invited on the proposed allotment site to the north of Charney Field. Attention was drawn to potential conflict arising from the use of the northern goalposts and miscued footballs landing in the allotments. It has since been suggested that a notice could be exhibited encouraging users to use the southern goalposts.

The Field Subcommittee believe this would be unenforceable and if not adhered to could add to the problem.

The Management Committee are asked to authorise the subcommittee to investigate (jointly with the Parish Council) the possibility of installing purpose made netting behind the goalposts at the northern end of the Field.
